

1. Faith is *believing without seeing*.

We always want to see first *then* believe, but with the eyes of faith you believe *then* God opens your eyes to see

1. Faith is *obeying without emotion or feeling*.

Faith is walking into a dark room and knowing that, at the right time, God will turn on the light!

2. Faith is being *Courageous without restraint*.

If what you believe is true and your faith is true you will not hesitate to say or do the courageous thing God is telling you to do.

4. Faith is being *Contagious without restriction*.

Do you exude faith to others? Do your actions show others the way to the Lord?

5. The issue of true faith is *not its amount, but its object*

If your faith is high but the ice is thin, you will fall through. If your faith is weak but the ice is thick, you will walk safely. Believing and having Faith in God is always trustworthy. Having faith in others is iffy.

6. Authentic faith will *transform your life*

The fruit of a changed life is really a life that is transformed. If your life is not changed to conform to His, and you live like the devil, you do not have a true saving faith
